Mayor Malaprop

Sir: Here are two more Mayor Daleyisms [July 18], told to me years ago by a member of his city council at that time: He told about being with Dr. Paul Dudley White and riding a tantrum bicycle with him. He spoke about the garbage situation here in Chicago and said that the refuge collection was going along well.

Sir: Was it not Mayor Daley, master of the paraphrase, who also said, "Progress is our most impotent project?"
